

REF: D3G-35/28/5/24

- The President, Uganda National Students Association
- The Honorable Minister, Ministry of Education and Sports
- The Chief Executive Officer, Uganda Bankers Association
- The Chief Executive Officer, Insurance Regulatory Authority
- The Chief Executive Officer, The Uganda Institute of banking and financial institutions
- The Principal, Makerere University Business School

Dear Sir/Madam,

CREATE A STUDENT'S FUTURE FUND FOR CAPITAL OF DROPOUTS AND GRADUATES

Dithree Group is a private holding and hosting company which provides advisory services, intermediary business and civic education on domestic resources mobilization of creating collective prosperity opportunities and sustainable development projects through coordinating investment partnerships, joint ventures, investment clubs and composing proposals as highlighted on www.d3gafrica.com so as to articulate **Agenda 2063** into Business Models and Social Programs which bridge African challenges with African solution.

And the fact that necessity is the mother of innovation, this is to propose that Uganda National Students Association and Ministry of Education and Sports ^{invite} with insurance companies and commercial banks to create a Student's Future Fund for Capital (**SFFC**) which any school dropout or graduate can use to start a business or to go for further studies so as to enable graduates who fail to secure employment and dropouts who fail to graduate create their own business. The **SFFC** should be deducted from the student's fees and tuition by a certain percentage right from primary school fees throughout university. On the **05 April 2024** Dithree Group wrote to Ministry of education about the proposal of creating a University Commercial Bank (**UBC**) and a Public Schools Holding Company which owns all government schools and I suspect that some graduates who failed to secure jobs and capital yet their parents scarified a lot to raise their fees and tuition are psychologically tortured to an extent that they come to a point of wishing that their parents saved the fees and tuition as future capital even if there is no guarantee that a business cannot fail. The **UBC** proposal was first addressed to the Principal of Makerere University Business School (**MUBs**) on the **12 February 2024**.
