

REF: D3G-29/11/5/24

- The Honorable Minister, Ministry of Water and Environment
- The Executive Director, Kampala Capital City Authority
- The Honorable Minister, Ministry of Local Government
- The Executive Director, National Environment Management Authority

Dear Sir/Madam,

ESTABLISH A SOLID WASTE INVESTMENT AGENCY FOR ENVIRONMENTAL PROTECTION

The fact that government is facing mounting challenges of solid waste management, limited resources, inadequate infrastructure and informal waste disposal practices yet there is a lot of private funds chasing for opportunities, this is to propose that,

1. Government partners with the private sector through a Public-Private Partnership to create a Solid Waste Investment Agency (SWIA) which STRICTLY buys value added products or services from any company or SMEs which adds value on solid waste for recycling and then re-sale the products or services to the open market so as to propel demand and supply that creates more jobs and taxes in the best interest of fostering collective prosperity, environmental protection and sustainable development.
2. All companies or SMEs which adds values for recycling should STRICTLY pick their solid waste from either the gazetted dumping sites or establish their operation at the dumping site on condition that they are certified by SWIA to avoid a situation of manipulating SWIA objectives.

The SWIA Partnership should STRICTLY be done with companies or SMEs which are owned by Ugandans on condition that SWIA outsources the management and technical team from abroad but deputized by Ugandans so as to pass on expertise or professional competence to Ugandans from foreigners. SWIA should as well be mandated to develop adequate solid waste infrastructure on top of regular public educate about the formal solid waste disposal practices.

On the 22 April 2024 Dithree Group proposed to **National Forestry Authority** Reference No.D3G-19/22/4/24 about the need to plant rubber trees in kalamoja region for exporting rubber to India and Japan as raw materials of making tyres for vehicles and bikes which Ugandans import from them so as to promote trade reciprocation that mitigates climate change. And it should be a policy for all forests and wetlands to have a military detach which protects them from encroachers. On 23 April 2024 Dithree Group proposed to **Ministry of Local Government** Reference No. D3G-22/23/4/24 about the need of creating National Market Vendors Association which among others ensures that each market gets a garbage collection truck which ease the delay of waste disposal. On 12 February 2024 Dithree Group proposed to **National Environment Management Authority** Reference NO. D3G-08/12/2/24 to mobilize tyre importers on planting rubber trees for exporting rubber to India and Japan as raw materials for making tyres of vehicles and bikes we import from them so as to promote trade reciprocation and to mitigate climate change.

Yours Faithfully,

Ddembe Diamondise Ddumba

Your Excellence

SWAP PRESIDENCY IN ADOPTION OF GOVERNOR TITLE OF FASTING TRACK AFRICAN FEDERATION, IDENTIFYING LEADERS, TRADING EVIDENCE AND IDENTIFYING GOODS

Dithree Group is a private company that mobilize domestic resources for the creation of collective prosperity opportunities and sustainable development projects through advisory services, holding services, asset management as highlighted on our website so as to articulate **AGENDA 2063** into Business Models and Social Programs that bridges African challenges with African solution. This teamwork, mental work and network of investment partnerships, development proposals and joint ventures instills a sense of direction, a sense of dignity and a sense of belonging in the African dream.

And as such, African heads of states (**Presidents**) swap presidency with other African countries so as to fast tract African federation and also surrender the title of President to the Chairperson of African Union in adoption of the govern title. While Embassies, voters and governments WhatsApp your workmates, relatives, friends, neighbors and classmates to identify goods from countries which facilitates wars, homosexual, coups, GMOs and terrorism in Africa. To buy or sale evidence of foreign corruption investment, tax evasion, domestic corruption investment or tax defaulting at twenty percent commission. And to identify competent, visionary and pragmatic political candidates of integrity who to mobilize domestic resources for the creation of collective prosperity as proposed in my letters upload on the our company website for you to digest them because borrowing for consumption and importing for consumption in an environment where tax rates raise and also corruption increase is disabling the natural abilities of Africans to apply our minds on a full state of identifying African solutions. For example, the Ugandan president should take over South African presidency, the Egyptian president takes over Uganda presidency, the Kenyan President takes over Egypt presidency, the Nigerian President takes over Kenya presidency, and the Rwanda President takes over Nigerian Presidency etc. on a rotational basis but there is need for the Chairperson of African Union to be nominated from the sitting Secretary Generals of Africa's Blocs like SADC, EAC, ECOWAS etc. so as to fast tract Africa federation.

Website www.d3gafrica.com

On 28 May 2024 Dithree Group (**formally Dithree Group**) proposed under Reference No. **D3G-34/28/5/24** that Political parties in African countries create an Inter-Political Party Library (**IPPL**) in the best interest of writing Africa's nativities Political Parties should collectively write a book about the good and bad of all former presidents of Uganda and its politics and use the accrued funds to build an Inter-Political Political Library (**IPPL**). The **IPPL** should annually publish an Africa leadership book among others political aspects highlighting the good and bad of all former African presidents and use the accrued funds to build an Inter-Political Party Library (**IPPL**) which should annually publish a leadership book among other. In the modern setting of Africa's multiparty dispensation and gender equality, it should be that a presidential candidate who scores second to automatically becomes the Prime Minister (**head of government business**) and the one who scores third automatically become the speaker of parliament on condition that the male leaders (**across the board**) appoints a female deputy/vice without compromising professional competence and the female leader should as well do the same. Leaders have to be like parents who derive joy from the welfare of their children and that's why a dictator who protects national interests at the expense of foreign interest is better than a democrat who protects foreign interest at the expense of national interest because the imperialist attitude of America, Europe and their allies to sanction countries and to overthrow governments with an excuse of promoting democracy is grooming more dictators globally a trend which is putting the opposition political parties between a rock and a hard place. Unfortunately, MOST African leaders preach Pan-Africanism which they don't practice by putting their small personal interests before big national interest.

Until the western countries (**America, Europe and their allies**) accept that according to the law of nature democracy and autocracy have to co-exist based on the fact that God created the world on a two dimension (**good and bad, day and night, God and Satan, Strong and weak, male and female etc. to balance the equation or to complement each other**) the world will never be at peace with America's selfish attitude of dominating the world at the expense of the dominated. Leaders have to be like parents who derive joy from the welfare of their children and that's why a dictator who protects national interests at the expense of foreign interest is better than a democrat who protects foreign interest at the expense of national interest because the imperialist attitude of America and its allies to sanction countries and to overthrow governments with an excuse of promoting democracy is grooming more dictators globally a trend which is putting the opposition political parties between a rock and a hard place. Unfortunately, MOST African leaders preach Pan-Africanism which they don't practice by putting their small personal interests before big national interest. A democrat who grooms citizens into potential investors, leaders, entrepreneurs and appoints based on professionally competence is far much better than a dictator who prioritizes foreign investors/leaders/entrepreneurs and appoints based on political patronage. I have observed that western countries are using the excuse of promoting democracy and fighting terrorism to destabilize African countries. If political power fails to enforce the rule of law in Africa and the people power fails to enforce mob justice, the gun power will be the only option for African countries.

Both the Quran in Surah Al-Imran 3:104 and the Bible in Mathew 9:35-37 complement each other on the fact that African challenges called Dithree Group to apply the mind on a full state of identifying African Solutions jealously, on principle and by conviction outside the square because a successful society is based on the skills and values of its leadership. The economic success of a nation is based on each individual business and job. Leadership is the process of social influence where one person mobilizes the aid or support of others in the accomplishment of a common goal or task. While development is the changing of society with effects to its norms, values, institutions, attitude of its people, methods of production and the way in which resources are distributed for the attainment of total transformation.

Yours Faithfully,
