Powers that were sang in each African country. Use corporate social responsibility to sensitize the residents to sue bars, religious institutions and clubs which inconvenience them with sound pollution that deprives them of sleeping at night or relaxing during day including informing them that the fact that **MAJORITY** of the **BLACK PEOPLE** have an attitude of sabotaging other people to develop their talents or to succeed, change this culture by investing in talented relatives or talented friends and avoid facilitating friends and relatives who refused to help you when you were straggling to climb the ladder of success.

On 23 April 2024, **Dithree Group** proposed the same to **Uganda Musicians Associations** under Reference No. **D3G-21/23/4/24** and further proposed the following below or as per the attached copy because Africa Union's **Agenda 2063** emphasis the need to mobilize domestic resource for collective prosperity and sustainable development that **Uganda Airlines** negotiate with each local music artist to organize for his or her fans a get together **BEACH** and **BUZZ** party in any foreign country of your choice on condition that the fans use the boarding ticket of Uganda airlines as entry ticket to the party as Ugandans living in the Diaspora buy brand airline caps and Hoodies as entry ticket. While **Uganda Railways** sponsor friendly sports matches in various parts of the country on condition that the fans use the train boarding ticket as entry ticket to watch the matches. Both the Quran in Surah Al-Imran 3:104 and the Bible in Mathew 9:35-37 complement each other on the fact that African challenges called Dithree Group to apply the mind on a full state of identifying African Solutions jealously, on principle and by conviction outside the square because a successful society is based on the skills and values of its leadership. The economic success of a nation is based on each individual business and job. Leadership is the process of social influence where one person mobilizes the aid or support of others in the accomplishment of a common goal or task. While development is the changing of society with effects to its norms, values, institutions, attitude of its people, methods of production and the way in which resources are distributed for the attainment of total transformation.
