- The Commissioner General, Uganda Prisons Service
- The Chief of Defense Forces, Uganda People's Defense Force
- The Inspector General of Police, Uganda Police Force
- The Chief Executive Officer, MTN Uganda Limited
- The Chief Executive Officer, Huawei Uganda Limited

Dear Sir/Madam,

REVOLUTIONIZING DEFENSE AND SECURITY AT THE EXPENSE OF CRIME

In respect of mobilizing domestic resources in the best interest of enforcing security and defense challenges at the expense of crime, this is to propose that,

1. It should be a Defense and Security policy for all L.C.I defense secretaries countrywide to automatically become agents of JATT so as to improve defense and security intelligence efficiency and on the 12th/02/24 Dithree Group proposed to National Environment Management Authority NEMA reference NO. D3G-08/12/2/24 that all forests and wetlands should have a military detach which protects them from encroachers. But to fast-track kalamoja development UPDF should work with the **Office of the Prime Minister (OPM)** on nationalizing the land in kalamoja region, sentence kalamoja warriors/cattle rustlers to a minimum jail term of ten plus years in prisons outside kalamoja region for attitude change, transfer all teenage kalamojongs to state owned boarding schools outside kalamoja region to study from there and to stay there during holidays for deprogramming, appoint adult female kalamojongs to plant potatoes, beans and cassava for sale to Namalu Prison Farm as deity without giving them seeds etc. put out all the warriors/cattle rustlers who resist arrest. And sale the land to domestic investors/entrepreneurs on condition that each investor/entrepreneur who buys the land adopts teenage kalamojongs from the state-owned boarding schools.
2. **Uganda Prisons Service (UPS)** and **Uganda Police Force (UPF)** substitute manual data entry by appointing Huawei to supply reception computers countrywide with a centralized data base on condition that UPF and UPS pays Huawei in installments every financial year because such brands can't be stolen by the staff to sale them on an open market for lack of demand. **MTN Uganda** mobilize telecom companies throughout African to collectively appoint Huawei on developing an Africa App Store for smart phones and developing an alternative internet search engine for Africa so as to avoid a situation where the current hosting nations hold Africa at ransom. And if necessary also send an Africa data and communication satellite in space. While **Uganda Broadcasting Corporation** mobilize state own television station throughout Africa to merge into an Africa Global Broadcasting Network

3. Whereas there is need for **UPF** to buy mini-van for transporting suspects to court instead of packing them under the patrol seats as chicken, but for **UPF** and **UPS** to reduce on the cost of transporting suspects/prisoners to and from court there is need for all Central Prisons to have semi-detached magistrates court and High Court on condition that the current magistrates courts are converted into police stations hence reducing the risks of suspects/prisoners escaping. Allow rich prisoners with long term sentences to sale at least sixty percent (60%) of their sentence to poor prisoner(s) with short term sentence upon negotiations between the two parties before the officer in charge of prison and the magistrate/Judge seal the deal on condition that the rich prisoner meets all the tax charges and legal charges of the transaction. **UPS** should create a Prison Farm Holding Company (**PFHC**) which holds all prison farms and sale forty percent (40%) shares of the **PFHC** to international farming companies so as to maximize the potential of prison farms. And given the high rate of idle labor of remand prisoners yet government spends heavily on feeding and treating them, there is also need for the **PFHC** to import commercial work into remand prisons which make them busy while earning. **UPS** partner with spinning companies to add value on the cotton you plant instead of exporting it as raw materials and also partner with abattoirs on adding values on hide and skins for manufacturing police, military and prison shoe instead of exporting them as raw materials. On the 12th/02/24 Dithree Group proposed under Reference No. **D3G-07/12/2/24** that Prisons, Districts and Police should invite local companies like insurances companies and domestic billionaires like kwagalana club to finance the construction of the Barracks, district headquarters and stations on a Build, Own, Operate and Transfer basis (**BOOT**).

Otherwise, whereas Prisons and schools should shift from the rudimentary banging bells by installing solar powered ring bells, are government's priorities misplaced? It is unfortunate that in February 2023 the giant store of Namalu Prison farm which government uses to give out free iron sheets, beans, tarpaulins, maize flour, seeds etc. to kalamojongs is in front of the junior prison staff barrack whose uniports are roofed with grass. At the time, prisoners in local prisons like Ntwetwe prison earned **UGX-500** per day whenever they were hired to go out for work and when they are done with their sentences, they get all their wages. But prisoners in farm prisons like Namalu prison earned **UGX-100** per day and when they are done with all their sentences, they don't get all their wages even when you were a disciplined hardworking prisoner. Now, is there someone at the prisons headquarters who is capitalizing on the **UGX-100** earning scheme because Uganda Prisons knows when someone is convicted and he/she will complete his or her sentence and if you call former convicts who were not paid their earning scheme, you will be surprised the turnover.

Dithree Group
Yours Faithful,
22 APR 2024
