Therefore, fact that **Agenda 2063** emphasis the need to mobilize domestic resources for the attainment of sustainable development and collective prosperity, this is to propose that you,

The **AAUGPAC** should rotation throughout African countries to spar intra-Africa tourism, investment, intellectual capability, exploration, trade, talent opening with a song **ALL WE NEED IS HERE IN AFRICA** by P.J Powers and closing with **BORN IN AFRICA** by Bongole Philly Lutaaya. But since socialism requires African governments to walk the talk with the African people (**Political Will over People Power**). The fact that knowledge has known value except gains from its application, African challenges are calling Dithree Group to apply the mind on a full state of identifying African Solutions jealously, on principle and by conviction outside the square through **Advisory Services, Intermediary Business and Civic Education** which propagates **Business Models and Social Programs** because development is the changing of society with effects to its norms, values, institutions, attitude of its people, methods of production and the way in which resources are distributed for the attainment of total transformation

The **AAUGPAC** should rotation throughout African countries to spar intra-Africa tourism, investment, intellectual capability, exploration, trade, talent opening with a song **ALL WE NEED IS HERE IN AFRICA** by P.J Powers and closing with **BORN IN AFRICA** by Bongole Philly Lutaaya. But since socialism requires African governments to walk the talk with the African people (**Political Will over People Power**). The fact that knowledge has known value except gains from its application, African challenges are calling Dithree Group to apply the mind on a full state of identifying African Solutions jealously, on principle and by conviction outside the square through **Advisory Services, Intermediary Business and Civic Education** which propagates **Business Models and Social Programs** because development is the changing of society with effects to its norms, values, institutions, attitude of its people, methods of production and the way in which resources are distributed for the attainment of total transformation.

Africa Union's **Agenda 2063** emphasis the need to mobilize domestic resource for collective prosperity and sustainable development. Both the Quran in Surah Al-Imran 3:104 and the Bible in Mathew 9:35-37 complement each other on the fact that African challenges called Dithree Group to apply the mind on a full state of identifying African Solutions jealously, on principle and by conviction outside the square because a successful society is based on the skills and values of its leadership. The economic success of a nation is based on each individual business and job. Leadership is the process of social influence where one person mobilizes the aid or support of others in the accomplishment of a common goal or task. While development is the changing of society with effects to its norms, values, institutions, attitude of its people, methods of production and the way in which resources are distributed for the attainment of total transformation.
