Your Excellence

CREATE AN AFRICAN OIL, AIRLINE & MINERAL CORPORATION

Dithree Group is a private company that mobilize domestic resources for the creation of collective prosperity opportunities and sustainable development projects through advisory services, holding services, asset management as highlighted on our website so as to articulate **AGENDA 2063** into Business Models and Social Programs that bridges African challenges with African solution. This teamwork, mental work and network of investment partnerships, development proposals and joint ventures instills a sense of direction, a sense of dignity and a sense of belonging in the African dream. And as such, this is to propose that you mobilize all African countries to,

1. Collectively create an African Oil and Mineral Exploration and Extraction Company (**AO&ME&EC**) where China holds twenty percent (20%) shares of the **AO&ME&EC** on condition that the **AO&ME&EC** establish itself in each African country and sale ten percent (10%) shares to the private sector of each African country so as to protect the interests Africa and China because significant development has cropped up within the short length of time China has been in Africa as compared to the long length of time Europe and America have been in Africa.
2. Partner with China on building airline capability of each African country on condition that China provides its manufactured **Comac C919** commercial plane to each airline in exchanges for shares in an African airline.

On the **24 April 2024** Dithree Group proposed to Uganda National Oil Company (**UNOC**) and to Ministry of Energy and mineral development under Reference No. D3G-24/24/4/24 that African countries (**African Union Summit**) appoints China to construct airstrips, install solar panels, construct railways, install wind turbines and to construct roads on all Africa's no man's land borderlines on a basis of Build, Own, Operate and Transfer (**BOOT**) so as to tame illicit porous border trade. On the **22 April 2024** proposed to Uganda National Oil Company (**UNOC**) and to Ministry of Energy and mineral development under Reference No. D3G – 19/22/4/24 to mobilize and coordinate all state-owned oil companies throughout all African countries to collectively create an Africa Oil Exploration and Extraction Company (**AOE&EC**) and sale ten percent of the **AOE&EC** shares to BRICS Business Council

There is also need for all Africa-China Summits, Africa–America Summits, Africa-Russia Summits, etc. to held in Africa on a rotational basis were all African heads of states share a common position of articulating **AGENDA 2063** so as to spar Africa's private sector business because China, America, Russian etc. being developed countries unlike Africa, they need Africa's market and minerals as much as Africa needs their trade and investments. Otherwise, both the Quran in Surah Al-Imran 3:104 and the Bible in Mathew 9:35-37 complement each other on the fact that African challenges called Dithree Group to apply the mind on a full state of identifying African Solutions jealously, on principle and by conviction outside the square because a successful society is based on the skills and values of its leadership. The economic success of a nation is based on each individual business and job. Leadership is the process of social influence where one person mobilizes the aid or support of others in the accomplishment of a common goal or task. While development is the changing of society with effects to its norms, values, institutions, attitude of its people, methods of production and the way in which resources are distributed for the attainment of total transformation.

Yours Faithfully,

Ddembe Diamondisc Ddumba
Chief Executive Officer
