1. The Principal, Ntinda Vocational Training Institute (NVTI)
2. The Principal, Nakawa Vocational Training College (NVTC)

Dear Sir/Madam

PROPOSAL OF MOBILIZING DONORS TO FACILITATE APPRENTICES TO UPGRADE

Triple D Empire (formerly Dithree Group) creates business models and social programs of articulating public policies into private projects. Mobilize domestic resources of creating collective prosperity opportunities. And propose public sector solutions of bridging private sector challenges. This teamwork, mental work and network instills a sense of direction, a sense of dignity and a sense of belonging in Africans to speak with authority in the global economics. Hence de-colonizing Africa because the great wall was not built in one day. Therefore, since there are many apprentices in the field of mechanics, carpentry, plumbing etc. who don't have the technical theory and technical certificates, Triple D Empire is propose to identify donor (s) who may be interests in facilitating such apprentices to upgrade at NVTC or at NVTI and also take the responsibility of mobilize the apprentices for the upgrading when the donor(s) is identified.

1. On the 15 March 2024 Dithree Group (now Triple D Empire) proposed under Ref D3G-15/15/03/24 that government establish a Public School Holding Company (PSHC) which owns all public primary schools, secondary schools, universities, vocational schools and technical schools with a mandate of creating more public schools, manufacturing scholastic materials, managing all public schools, manufacturing office stationary, renovating all public schools and creating commercial hostels so as to gradually eliminate donor dependency, tame miss-management of education funds, to reduce the cost of education and to create a pool of subsidizing public schools promptly and efficiently. The proposal also highlights the need to mobilize all universities to collectively establish a University Commercial Bank (UCB).
2. On 28 May 2024 Dithree Group (now Triple D Empire) proposed under Ref: D3G-35/28/5/24 that Uganda National Students Association and Ministry of Education and Sports invite with insurance companies and commercial banks to create a Student's Future Fund for Capital (SFFC) which any school dropout or graduate can use to start a business or to go for further studies so as to enable graduates who fail to secure employment and dropouts who fail to graduate create their own business. The SFFC should be deducted from the student's fees and tuition by a certain percentage right from primary school fees throughout university.

If you give this proposal a green light, Triple D Empire intend to **STRICTLY** mobilize domestic donors (Private Companies and or Non-Government Organizations) under Corporate Social Responsibility (CSR) because Vision 2040 and Agenda 2063 emphasis the need to mobilize domestic resource for collective prosperity and sustainable development. And both the Quran in Surah Al-Imran 3:104 and the

Bible in Mathew 9:35-37 complement each other on the fact that African challenges called Triple D Empire to apply the mind on a full state of identifying African Solutions jealously, on principle and by conviction outside the square because a successful society is based on the skills and values of its leadership. The economic success of a nation is based on each individual business and job. Leadership is the process of social influence where one person mobilizes the aid or support of others in the accomplishment of a common goal or task. While development is the changing of society with effects to its norms, values, institutions, attitude of its people, methods of production and the way in which resources are distributed for the attainment of total the transformation.

When the mobilization program peaks, it will have to be extended to others institutional/colleges countries. Many proposals have so far been submitted to various government organizations, private companies and after developing our website, they will be uploaded to enable society to follow up and take advantage of them because Africa's priorities are misplaced to an extent that the only way African governments can guaranty development is by STRICTLY appointing professionally competent ministers, technocrats/civic servants, politicians of integrity with better remuneration ON CONDITION that they take full responsibility of the failure or the success of the organization, ministry or department because politicking for personal interests is failing many development projects yet political will plays a major role in propelling national interests.

- For African and Our Company
