Dear Sir/Madam

ENACTING IMPARTIAL SIMPLE DEFILEMENT LAW AND TRADING PRISON JAIL SENTENCE

Dithree Group is a private company that mobilize domestic resources for the creation of collective prosperity opportunities and sustainable development projects through advisory services, holding services, asset management as highlighted on our website so as to articulate **AGENDA 2063** into Business Models and Social Programs that bridges African challenges with African solution. This teamwork, mental work and network of investment partnerships, development proposals and joint ventures instills a sense of direction, a sense of dignity and a sense of belonging in the African dream. This is to propose that you Uganda,

1. Enacts an impartial simple defilement law which punish both the teenage girl who indulge in sexual intercourse (**fornicate or trades in sex**) for material or monetary gains and the male who provides the material or monetary in exchange for sex because given the rate of youths on simple defilement cases in prison for years were the rate of teenage girls involved in sexual immorality is extremely high because of the blank cheque teenage girls have to indulge in sexual immorality (**fornication**) as they please. Sexually active teenage girls as young as ten years (**10 years**) indulging in sexual immorality as a result of the environment they are brought up in were also some of their parents permit them to seduce men for material or monetary gains (**prostitution**) not for getting peer pressure. The impartial law will act as a scare crow for teenage girls to an extent that it should state that any teenage girl who decides to have sex for material, for pleasure or for money before clocking eighteen years consents to simple defilement hence subject for punishment by law and the parents who allow their children to indulge in sex for material gains before clocking eighteen years of age commit an offence of promoting simple defilement.
2. Enacts a law which allows rich prisoners with long term sentences to sale at least sixty percent (60%) of their sentence to poor prisoner (s) with short term sentence upon negotiations between the two parties before the officer in charge of prison and the magistrate/Judge seal the deal on condition that the rich prisoner meets all the tax charges and legal charges of the transaction.
3. The fact that men buy women through dowry, It should be a policy for husbands to sale their wives to another man so as to recoup their investment just like football clubs do if such a wife turns out to be more of a liability than an asset because some women in the modern world divorce their husbands with a prospect of sharing wealth equally.
4. It should be a policy for the male bosses/leaders to appoint a female deputy/vice without compromising professional competence as well as all female bosses/leaders to appoint a male deputy/vice.

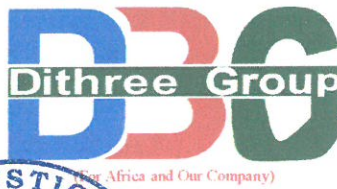

5. In the modern world were the garden is in the pocket, it should be a policy for working husbands, pay for only rent, fees, meals etc. on condition that your working wives pay for electricity bills, scholastic materials, water bills, snacks, TV bills etc. so as to promote gender equality amongst working class couples because our grandmothers contributed finically for the welfare of their families by tilting the family land which the grandfather bought. The grandfather would sale the harvest and buy clothes for the grandmother and the children including other household properties. Any WORKING WIFE who says that this is my money and my parents does so from a selfish angle without reasoning and consideration because the fact that her husband also have parents, such a lady should stay with their parents (without getting married) so as to closely enjoy her money with her parents. There are many weddings but few marriages simply because couples (cohabiting or married) don't collectively contribute towards the success of a project called MARRIAGE and FAMILY yet a successful relationship is where each partner contributes by fifty percent. When a man is going out for work, his first priority is to ensure that he makes enough money of feeding his children and wife to an extent that some men walk to work and work on an empty stomach so as to save enough for their family. Unfortunately, the first priority of a woman when going for work is to get enough money for her dressing, her parents and her hair. Most woman don't care about men's straggles and they don't appreciate what men give them because of their selfish entitlement attitude.

Dithree Group proposed the same to various government organizations as per the attaches copies because both the Quran in Surah Al-Imran 3:104 and the Bible in Mathew 9:35-37 complement each other on the fact that African challenges called Dithree Group to apply the mind on a full state of identifying African Solutions jealously, on principle and by conviction outside the square because a successful society is based on the skills and values of its leadership. The economic success of a nation is based on each individual business and job. Leadership is the process of social influence where one person mobilizes the aid or support of others in the accomplishment of a common goal or task. While development is the changing of society with effects to its norms, values, institutions, attitude of its people, methods of production and the way in which resources are distributed for the attainment of total transformation.

Yours Faithfully,

Dear Sir/Madam,

ENACTING AN IMPARTIAL LAW THAT PROMOTES GENDER EQUALITY

The fact that gender equality is the enjoyment of equal access to resources, freedom and opportunities, this is to propose that government

1. It should be a policy for the male bosses/leaders to appoint a female deputy/vice without compromising professional competence as well as all female bosses/leaders to appoint a male deputy/vice
2. Enact an impartial simple defilement law which punish both the teenage girl who indulge in sexual intercourse (fornicate or trades in sex) for material or monetary gains and the male who provides the material or monetary in exchange for sex because given the rate of youths on simple defilement cases in prison for years were the rate of teenage girls sexual immorality is extremely high because of the blank cheque teenage girls have to indulge in sexual immorality (fornication) as they please. The same law should allow rich prisoners with long term sentences to sale at least sixty percent (60%) of their sentence to poor prisoner(s) with short term sentence upon negotiations between the two parties before the officer in charge of prison and the magistrate/Judge seal the deal on condition that the rich prisoner meets all the tax charges and legal charges of the transaction.
3. It should be a policy for a working husbands should pay for only rent, fees, meals etc. as your working wives pay for electricity bills, scholastic materials, water bills, snacks, TV bills etc. so as to complement each other efforts towards the welfares of the family and the marriages because there are many weddings but few marriages yet a successful relationship is where each partner contributes by fifty percent. And the fact that men buy wives through dowry, the law should allow men to sale their wives to another man so as to recoup their investment just like football clubs do if such a wives turns out to be more of a liability than an asset because most women in the modern world devour men with an objectives of sharing wealth equally.

other.

The law will act as a scare crow for teenage girls to an extent that it should state that any teenage girl who decides to have sex for material, for pleasure or for money before clocking eighteen years consents to simple defilement hence subject for punishment by law and the parents who allow their children to indulge in sex for material gains before clocking eighteen years of age commit an offence of promoting simple defilement. Sexually active teenage girls as young as ten years (10 years) indulging in sexual immorality as a result of the environment they are brought up in were also some of their parents permit them to seduce men for material or monetary gains (prostitution) not for getting peer pressure. Otherwise, if you invite people who have sons or brothers in prison over simple defilement yet the girl was left at large flying with other men to an extent of getting pregnant, you will be shocked by the large volume of turnout.
