Dear Sir/Madam,

INVEST IN AN AUTV DECODER WHICH HOSTS ALL AFRICAN TV CHANNELS

Triple D Empire (formerly Dithree Group) creates business models and social programs which articulate public policies into private projects. Mobilize domestic resources for collective prosperity opportunities. And propose public sector solutions of bridging private sector challenges. This teamwork, mental work and network instills a sense of direction, a sense of dignity and a sense of belonging in Africans to speak with authority in the global production and consumption. Therefore, this is to propose that you invest in the establishment of an African Union Television Decoder (AUTV-D) and AUTV-APP which hosts all African TV channels and then sale the AUTV-D to all African countries so as to widen your audience coverage on top of fast-tracking the Africa federation. The AUTV-D should as well host radio channels.

Agenda 2063 and Vision 2040 emphasis the need to mobilize domestic resource for collective prosperity and sustainable development. And both the Quran in Surah Al-Imran 3:104 and the Bible in Mathew 9:35-37 complement each other on the fact that African challenges called Triple D Empire to apply the mind on a full state of identifying African Solutions jealously, on principle and by conviction outside the square because a successful society is based on the skills and values of its leadership. The economic success of a nation is based on each individual business and job. Leadership is the process of social influence where one person mobilizes the aid or support of others in the accomplishment of a common goal or task. While development is the changing of society with effects to its norms, values, institutions, attitude of its people, methods of production and the way in which resources are distributed for the attainment of total the transformation. But the only way African governments can guaranty development is by STRICTLY appointing professionally competent ministers, technocrats/civic servants, politicians of integrity with better remuneration ON CONDITION that they take full responsibility of the failure or the success of the organization, ministry or department because politicking for personal interests is failing many development projects yet political will plays a major role in propelling national interests. Otherwise, I will be very grateful if my proposal is considered

Yours Faithfully,
