Dear Sir/Madam

### CREATE AFRICA EQUITY INVESTMENT AGENCY WHICH SAIL AFRICAN COMPANIES

Triple D Empire (formerly Dithree Group) creates business models and social programs which articulate public policies into private projects. Mobilize domestic resources for collective prosperity opportunities. And propose public sector solutions of bridging private sector challenges. This teamwork, mental work and network instills a sense of direction, a sense of dignity and a sense of belonging in Africans to speak with authority in the global production and consumption. Therefore, this is to propose that Africa Export and Import BANK and Africa Development Bank mobilize SADC, ECOWAS, ECCAS, EAC and COMESA collectively set up an African equity investment corporation (AEIC) which identifies potential African own companies and buys in some shares with a prospect of helping such companies to enter all markets of African countries.

The chairperson of African Union should be the patron of leading AEIC to all African states so as to protect African interests' jealously on principal and by conviction. And the AEIC should secure operating funds from member states. On the 22 April 2024 Dithree Group (now Triple D Empire) Proposed under Reference No. D3G -20/22/4/24 that Africa Export and Import Bank, Kampala City Traders Association and Uganda Export Promotion Board collectively invite traders for an Africa Intra-Trade Opportunities Tour (AITOT) of promoting AFCFTA. The chairperson of African Union should be the patron of leading AEIC to all African states so as to protect African interests' jealously on principal and by conviction. And the AEIC should secure operating funds from member states. But whenever KACITA Uganda is demonstrating against the increase of taxes it should also pressure government on eliminating the corruption tendencies highlighted in the budgetary leak and if it is true that President Museven wants traders to migrate to manufacturing yet trading is their calling, he should first sack the minister for Trade and close the ministry of trade because manufactures and traders complement each other in the business chain. However, is government's priorities misplaced? Why is it that government can recoup the billions of grow funds borrowed from World Bank to lend to women yet it failed to recoup trillions of Ntandikwa funds, Myoga funds etc. borrowed from taxpayer? Do foreigner's priorities take precedence over citizen's priorities? It is unfortunate that a good number of Ugandan ladies

who own small business have an orphan like attitude problem of receiving without giving back to an extent that both those who money and those who don't have money are desperately begging money. They prefer sleeping with a variety of men just to get free money of injecting in their business than to secure a zero interest loan where they have to pay back the principal.

Agenda 2063 and Vision 2040 emphasis the need to mobilize domestic resource for collective prosperity and sustainable development. And both the Quran in Surah Al-Imran 3:104 and the Bible in Mathew 9:35-37 complement each other on the fact that African challenges called Triple D Empire to apply the mind on a full state of identifying African Solutions jealously, on principle and by conviction outside the square because a successful society is based on the skills and values of its leadership. The economic success of a nation is based on each individual business and job. Leadership is the process of social influence where one person mobilizes the aid or support of others in the accomplishment of a common goal or task. While development is the changing of society with effects to its norms, values, institutions, attitude of its people, methods of production and the way in which resources are distributed for the attainment of total the transformation. But the only way African governments can guaranty development is by STRICTLY appointing professionally competent ministers, technocrats/civic servants, politicians of integrity with better remuneration ON CONDITION that they take full responsibility of the failure or the success of the organization, ministry or department because politicking for personal interests is failing many development projects yet political will plays a major role in propelling national interests. Otherwise, I will be very grateful if my proposal is considered

Yours Faithfully,

Ddembe Diamondisc Ddumba  
Chief Executive Officer

Dear Sir/Madam,

### SET UP AN AFRICAN EQUITY INVESTMENT CORPORATION

Dithree Group is a private company that mobilize domestic resources for the creation of collective prosperity opportunities and sustainable development projects through advisory services, holding services, asset management as highlighted on our website so as to articulate **AGENDA 2063** into Business Models and Social Programs that bridges African challenges with African solution. This teamwork, mental work and network of investment partnerships, development proposals and joint ventures instills a sense of direction, a sense of dignity and a sense of belonging in the African dream.

And as such, this is to propose that **SADC, ECOWAS, ECCAS, EAC and COMESA** collectively set up an African equity investment corporation (**AEIC**) which identifies potential African own companies and buys in some shares with a prospect of helping such companies to enter all markets of African countries. The chairperson of African Union should be the patron of leading **AEIC** to all African states so as to protect African interests' jealously on principal and by conviction. And the **AEIC** should secure operating funds from member states. On the **22 April 2024** Dithree Group Proposed under Reference No. **D3G -20/22/4/24** that **Africa Export and Import Bank, Kampala City Traders Association and Uganda Export Promotion Board** collectively invite traders for an Africa Intra-Trade Opportunities Tour (**AITOT**) of promoting **AFCFTA**. The chairperson of African Union should be the patron of leading **AEIC** to all African states so as to protect African interests' jealously on principal and by conviction. And the **AEIC** should secure operating funds from member states. But whenever **KACITA** Uganda is demonstrating against the increase of taxes it should also pressure government on eliminating the corruption tendencies highlighted in the budgetary leak and if it is true that President Museveni wants traders to migrate to manufacturing yet trading is their calling, he should first sack the minister for Trade and close the ministry of trade because manufactures and traders complement each other in the business chain.

Both the Quran in Surah Al-Imran 3:104 and the Bible in Mathew 9:35-37 complement each other on the fact that African challenges called Dithree Group to apply the mind on a full state of identifying African Solutions jealously, on principle and by conviction outside the square because a successful society is based on the skills and values of its leadership. The economic success of a nation is based on each individual business and job. Leadership is the process of social influence where one person mobilizes the aid or support of others in the accomplishment of a common goal or task. While development is the changing of society with effects to its norms, values, institutions, attitude of its people, methods of production and the way in which resources are distributed for the attainment of total transformation.

Yours Faithfully,
