Dear Sir/Madam,

ANNUAL POLITICAL STORY OF FACILITATING AN INTER-POLITICAL PARTY LIBRARY

Dithree Group is a private holding and hosting company which provides advisory services, intermediary business and civic education on domestic resources mobilization of creating collective prosperity opportunities and sustainable development projects through coordinating investment partnerships, joint ventures, investment clubs and composing proposals as highlighted on www.d3gafrica.com so as to articulate **Agenda 2063** into Business Models and Social Programs which bridge African challenges with African solution.

And for Uganda to motivate other African countries on creating an Inter-Political Party Library (IPPL) in the best interest of writing Africa's nativities, this is to propose that Political Parties should collectively write a book about the good and bad of all former presidents of Uganda and its politics and use the accrued funds to build an Inter-Political Political Library (IPPL). The IPPL should annually publish an Africa leadership book among others political aspects. In the modern setting of Africa's multiparty dispensation, it should be a policy for the presidential candidate who scores second to automatically become the head of government business (Prime Minister) and the one who scores third to automatically become the speaker of parliament on condition that all political parties are represented in the national election body on to of having crowd funding bank accounts were their supporters can donate using mobile phones and until the western countries and their allies accept that according to the law of nature democracy and autocracy have to co-exist based on the fact that God created the world on a two dimension (good and bad, day and night, God and Satan, Strong and weak, male and female etc. to balance the equation or to complement each other) the world will never be at peace with America's selfish attitude of dominating the world at the expense of the dominated.

A dictator who protects national interest at the expense of foreign interest is far much better than a democrat who protects foreign interests at the expense of national interests. While a democrat who grooms citizens into potential investors, leaders, entrepreneurs and appoints based on professionally competence is far much better than a dictator who prioritizes foreign investors/leaders/entrepreneurs and appoints based on political patronage. I have observed that western countries are using the excuse of promoting democracy and fighting terrorism to destabilize African countries. If political power fails to enforce the rule of law in Africa and the people power fails to enforce mob justice, the gun power will be the only option for African countries.

Dithree Group uploads is still work in progress to gradually become the best mobilizer and coordinator of Africans. On the **24 April 2024** Dithree Group proposed as per Reference No. **D3G-25/24/4/24** that **National Library of Uganda** should partner with **Aristoc Book shop** on publishing a three in one (3in1) book which translates African proverbs into English, local languages and Swahili because it is unfortunate that most Ugandans think that speaking English is the yardstick of measuring intellectual capability yet even the most stupid American, British etc. does not speak Lunyankole, Swahili, Luganda or zulu. But to instill Pan-Africanism in children all primary and secondary school' students should as a matter of principle and policy recite Africa Union's Agenda 2063 every Monday morning to Friday morning at the parade. **Ministry of Education and Sports**, direct Primary schools and secondary schools to teach students in an international language, a mother tongue language and an African adopted language. For example, a school in the central region of Buganda should teach students in Swahili, Luganda and English. A School in the western region of Ankole should teach in Swahili, Lunyankole and English. Etc. And also set up a National Street Kids School (NSKS) where any child you pick from the streets is taken and when he/she clocks eighteen NSKS transfers him/her to a training school of police, military or prison. **First Lady Janet Museven** and **Queen Sylvia Nagginda** should collectively mobilize African countries to grant free education to Afghanistan girls through a Public-Private Partnership with Arab Companies as a gesture of hope to Afghanistan girls. But there is also need for government to set up a national academic database where employers can log on to verify the authenticity of an applicant's transcript. **Aristoc Book shop** and **National Library of Uganda** mobilize Cultural Leaders, Chief Executives, Country Diplomats and Religious Leaders to write an annual leadership poem which carry their name, photo, title and drop it at the National Library of Uganda to publish them into a Poetic Slot Book Club (PSBC) which will motivate student's leadership on condition that the proceeds from the sale of the PBC are used to for the development of the National Library. But it should be a policy for the best university graduates in Africa who pass on *merit* to be employed by government. **Uganda National Students Association** partner with commercial banks and Telkom companies to conduct an annual science and artist award for the best students and graduate and also mobilize Asian students, Europe students, Middle East students, African students and America students in Uganda to write a poem on how the White Pig and the Black Monkey can co-exist with respect and publish them into a poetic book on condition that the accrued funds from the sale of the book are used for UNSA development. But It should be a policy for African Governments to stop issuing National I.D cards, Driving license, Passports, academic transcripts etc. to Africans who have colonial names so as to spiritually and emotionally disconnect ourselves from the bondage of colonialists to an extent that Africans whose National I.D cards, Driving license, Passports and academic transcripts carry the names of colonialists should be given an ultimatum to drop/abandon the colonial name were also GMOs and LGBTQs should as well be forbidden by African culture and Africa constitution. **Capital FM Radio** publish a Desert Island Book (DIB) derived from your records of Desert Island programs that you have compiled for years so as to educate the public about the realty of success marathon. While **Smart24 TV**, **The East African Newspaper** and **Bob FM Radio** collectively award tuition to any student who identifies a topic, program and article with common interest on your Radio, in your newspapers and your TV. But there is need for employers to introduce pre-exam for graduate who apply for jobs so as to tame the rate of fake transcripts in society.

Yours Faithful,

Ddembe Diamondisc Ddumba
Chief Executive Officer
