Dear Sir/Madam,

CREATE AN ONLINE ACADEMIC TRANSCRIPT VERIFICATION PORTAL

Dithree Group is a private holding and hosting company which provides advisory services, intermediary business and civic education on domestic resources mobilization of creating collective prosperity opportunities and sustainable development projects through coordinating investment partnerships, joint ventures, investment clubs and composing proposals as highlighted on www.d3gafrica.com so as to articulate **Agenda 2063** into Business Models and Social Programs which bridge African challenges with African solution.

Therefore, given the extent to which fake academic transcripts are used to secure employment at the detriment of society, this is to proposal that government creates an online academic transcript verification portal where employers can log on to verify the authenticity of an applicant's transcript and also sale pre-exam materials to employers who would like to test graduate who apply for jobs. It should also be a policy for the best university graduates in Africa who pass on *merit* to be employed by government with handsome remuneration.

However, government should inform unemployed graduates to identify unqualified employs (**either holding fake papers etc.**) who are working with government and apply for a job swap so as to promote professional competence. Can you imagine the consequences of your relative or friend being treated by a medical Doctor or taught by a lecturer/teacher who has fake academic papers? Africa Union's **Agenda 2063** emphasis the need to mobilize domestic resource for collective prosperity and sustainable development.

I will be very grateful if this proposal is honored in the best interest of protecting Ugandans.
