

# CIVIC EDUCATION

YOUR CIVIC RESPONSIBILITY AS A CITIZEN OR A RESIDENT IS TO DIRECTLY OR INDIRECTLY PARTICIPATE IN THE PUBLIC LIFE OF YOUR COMMUNITY IN AN INFORMED, COMMITTED AND CONSTRUCTIVE MANNER WITH A FOCUS ON THE COMMON GOOD. WHILE YOUR CORPORATE SOCIAL RESPONSIBILITY AS AN ORGANIZATION OR A COMPANY IS TO GIVE BACK TO SOCIETY. HOWEVER RICH, POOR, FAMOUS OR POWERFUL YOU ARE THE FAILURE OF IDENTIFYING YOUR PURPOSE FOR LIVING AS HIGHLIGHTED IN YOUR INTRINSIC VALUES AND USE IT FOR THE WELL FARE OF SOCIETY WILL SOON OR LATE HAUNT YOU EITHER IN GOOD TIMES OR IN BAD TIMES. THEREFORE, THE SOLUTION TO CHALLENGES OR PROBLEM WHICH YOU ENCOUNTER IN YOUR SOCIETY IS EMBEDDED IN EITHER YOUR TALENT, YOUR POCKET, YOUR EDUCATION, YOUR BUSINESS OR YOUR OFFICE. AND THE FOLLOWING BELOW IS TAILORED FOR YOU TO LEAD THE WAY OF FUSING PUBLIC GOOD WITH PRIVATE GAINS.

## 1) DISQUALIFY YOUR L.C.1 CHAIRPERSON

**Tenants boycott shabby office buildings, shopping arcades or residential buildings with mean landlords who don't care about the fancy organization of their buildings. Potters and mansions publish building malpractice evidence on social media. Ghetto residents and slam residents disqualify your L.C.1 Chairperson who does not call for monthly community cleaning, tree planting and protection of wetlands and also tell your fellow citizens not to litter rubbish. Landlords expel duty tenants who disorganize the area and those who inconvenience neighbors with noise (sound pollution). Potters and mansions publish building malpractice evidence on social media. Residents sue bars, religious institutions and clubs which inconvenience you with sound pollution that deprives you of sleeping at night. While Prisons and schools shift from the rudimentary banging bells by installing solar powered ring bells.**

## 2) REFUSE ANIMAL CRUELTY AND PASSENGER OVERLOAD

**Pedestrians and passengers don't allow the conductor to load extra passages, help traffic police officers to arrest riders and drivers who violate traffic rules or truck drivers who commit animal cruelty by loading animal/birds on the trucks and tie them in a painful manor which leads them to bleed or die in transit before they reach the market. But also, as a passenger or a pedestrian, don't litter rubbish.**

## 3) RAISE CHILDREN WITH MANNERS AND EMPATHY

**Educate your children....., feed them ..... And make them do house work .....\_Some of the causes of moral degeneration that has led to the social fabric breakdown is the fact that most children are raised by single mothers with too much motherly love without fatherly discipline. The fact that charity begins at home, love instills confidence while discipline instills a sense of direction to an extent that children who are raised by both biological parents or by a stepmother and a biological father tend to have a certain degree of discipline. Therefore, parents and**

teachers buy national constitutional copy, a pet animal, a National Development Plan copy and a pet for your children or your Students and ensure that as soon as they wake up in the morning or before they go to bed they read at least one page and attend to the pets so that they grow up with a sense of empathy for society and the sense of knowledge about the country because my GREATEST love will always go out for the welfare of animals, children and birds because their love is genuine to an extent that every bad thing they do, they do them in good faith out of ignorance. Identify their talents and align them with their education and tell them to invest in their talented relatives or talented friends on condition that they avoid friends and relatives who refused to invest in them when they were struggling to climb the ladder of success. Teach your students or children table manners of not eating like a pig which can't eat when closing its mouth and remind them that speaking English by any African is not the yardstick of measuring intellectual capability because even the most stupid Canadian, American, Australian, British etc. does not speak Lunyankole, Swahili, Luganda or Zulu. Take your students or children for religious services every week and guide them to say a prayer before they sleep and when they wake up. But they should never trust anyone basing on the degree they praise, worship or pray. Trust them basing on their character, attitude, behaviors or how they treat people because most people who spend of their time around mosques, churches or talking about God are EXTREMELY bad people hiding behind the curtains of religion/faith so as to take advantage of others.

4) REPORT VENDERS, CONDUCTORS AND ATTENDANTS

Passengers and consumers report to the police or to the LC1 vendors, conductors and attendants who touch or pull you in the course of wowing you to their market, vehicle or shop. Report truck drivers who load animal/birds on the trucks and tie them in a cruel or painful manner which leads them to bleed or die in transit before they reach the market. Don't take your vehicle to a garage which is not organized in a fancy way, open windcreens whenever you are in the taxi or bus to avoid inspiratory diseases or allergies and don't board a duty taxi, Boda-boda or bus with a shabby driver, conductor or rider.

5) VOTE LEADERS WHO MANAGE PUBLIC AFFAIRS EQUITABLY

Africans voters identify statesmen/women who are competent, visionary and pragmatic Presidential candidates, Chairperson candidates, Parliamentary candidates and Counselor ship candidates of integrity with an independent mind (like former E.D of KCCA Jenifer Namusi, former Mayor of Makindye Dr. Ian Clark, Former ethics Minister Honorable Miria Matembe etc.) who fight corruption, creates employment, improve civil servants welfare and fight poverty through mobilizing domestic resources because leaders have to be like parents who derive joy from the welfare of their children and that's why a dictator who protects national interests at the expense of foreign interest is better than a democrat who protects foreign interest at the expense of national interest because the imperialist attitude of America, Europe and their allies to sanction countries and to overthrow governments with an excuse of promoting democracy is grooming more dictators globally a trend which is putting

the opposition political parties between a rock and a hard place. Unfortunately, MOST African leaders preach Pan-Africanism which they don't practice by putting their small personal interests before big national interest and act like narcissist who prioritize foreign interest instead of citizens' interests and act like narcissists who prioritize foreigner's interests instead of citizen's interests. A statesman is a political leader who is experienced, wise, and respected. They are known for their ability to manage government affairs and make good decisions.

6) EXERCISE, DEITY, FAST AND REST TO LIVE LONGER

Much as unhealthy feeding is one the major cause of health complications, but also food is the best medicine. Therefore, mobilize your workmates, neighbors and classmates to regularly eat fruits, drink enough water, eat vegetables, test for HIV, Cancer, DNA, diabetes, do exercise, have enough sleep, to fast and to have enough rest/sleep so as to live longer and to be creative, healthy because exercising improves sleeping habits, blood circulation, digestive system, sexual performance, reduces toxins, stress and prolongs life span.

7) SENTENCE TRAFFIC OFFENDERS WITHOUT REMISSION

Drivers and riders help government to arrest traffic police officers who solicit for bribes and also engage government to increase the salaries of traffic police officers using funds lost through the budgetary leak. But It should be a policy for anyone found driving without a permit or violating traffic rules or overloading or over speeding or recklessly driving to be automatically sentenced for a one-year hard labor jail sentence without remission or to pay a fine which is a quarter of the value of his or her vehicle/bike or to BOTH serve the sentence and then pay a compensation afterwards if he or she is a habitual violator of traffic rules.

8) SPEND YOUR HARD-EARNED MONEY ON LIABILITIES

In 2005 I made a resolution of identify my purpose for living embedded in my intrinsic values so that I give out the best of me for the welfare of society in return of financial independence. I realized my resolution in 2020 through the creation of Dithree Group (Triple D Empire). Therefore, youths don't emotionally spend your hard-earned money on liabilities like a leisure car etc. for public opinion before setting up your own formal income generating asset or developing your talent based on purpose for living and always borrow for production instead of consumption because whereas driving a car does not make you rich it should be noted that financial literacy plus financial intelligence over financial discipline leads to financial independence. However, one of the reasons why Most African businesses or brands which start off on a good note of quality products, customer care, efficient services and tax compliance fail along the way is simply because once they peak, they substitute professional competence, quality products, customer care, efficient services and tax compliance with the craving of JUST MAKING MONEY. But also the fact that people buy primarily because of appearance, how your office/employs/shop etc. looks on the outside has more to do with the your products or service to an extent that

also the welfare, attitude and competence of your employs has more to do with the success or failure of your business, company or brand.

9) ORGANIZED MEN AND WOMEN WITH GOOD LOOKS

Any responsible organized man/boy must have four things on him whenever he is going out of his home. A watch which help you to ride on time, a wallet which contains an I.D Card in that when you get incapacitated on the way they can easy identify you, a pen so that you don't inconvenience other people when writing notes, and a handkerchief which helps you to wipe your sweats or to blow your nose in public. While any responsible organized woman/girl must have five things on her whenever she is going out of her home. A bag with sanitary pads, an I.D Card, a pen, a handkerchief and a watch on your wrist. However, the good looks of a male or a female can turn out to be a blessing or a curse depending on his or her attitude, value attachment and character. Most good looking male and female have dog food for brains, they have low self-esteem, they like soft life yet they don't want to work to an extent that the female are prostitutes and men are thieves. There are some FEW good looking male and female who are EXTRIMELY intelligent, hardworking, morally upright etc. who are good both in Bedroom and Boardroom and commands social respect for not de-valuing themselves by sleeping around with whoever for public opinion or monetary gains. Men and women who are blessed with intelligence, energy, looks, empathy, love, looks, sympathy and education have all the reasons to be selective with who you sleep with or associate with.

10) APPLY FOR A JOB SWAP AT TWENTY PERCENT COMMISSION

WhatsApp your relatives, workmates, friends, classmates or neighbors to buy or sale evidence of foreign corruption investment, wetland encroachment, tax evasion, deforestation, domestic corruption investment, noise pollution or tax defaulting at twenty percent commission because borrowing for consumption and importing for consumption in an environment where tax rates raise as corruption increase is disabling the natural abilities of Africans to apply our minds on a full state of identifying African solutions hence increasing foreign aid and imperialistic tendencies. Unemployed graduates identify evidence of academic forgery, ghost employ or unqualified employs and apply for a job swap because it is unfortunate that there are very few people who want to pay taxes but many stealing taxes. Alternatively, contact the IGG in attention to Transparency International (TI) to help you apply for the twenty percent commission (20%) of the recovered property, account or asset. But youths don't spend your hard earned commission on liabilities like cars etc. before setting up your formal income generating activity because of public opinion.....because financial intelligence.....and for purpose of information.

- Hedge fund is an investment instrument with pooled funds that is managed to outperform average market returns. The fund manager often hedges the fund's positions to protect them from market risk.
- Equity investment is where investors buy shares of private or public companies which are traded (Listed) on the stock market and become partial owners of the company as

per the shares they acquired. But private equity is ownership in entities which are not publicly traded.

- **Venture capital (VC)** is a form of private equity and a type of financing for startup companies and small businesses with long-term growth potential. Venture capital generally comes from investors, investment banks and financial institutions. Venture capital can also be provided as technical or managerial expertise.
- **Asset Managers** manage investments, Funds, make investment decisions, assess risk, ensure compliance with regulatory standard, pool funds from various investors for investments commensurate with specific risk tolerances to increase wealth over time and oversee the assets within an investor's portfolio.
- **Mutual funds** let you pool your money with other investors to "mutually" buy stocks, bonds, and other investments. They're run by professional money managers who decide which securities to buy (stocks, bonds, etc.) and when to sell them. You get exposure to all the investments in the fund and any income they generate.
- **Acquisition** is the situation where a company buys most or all of another company's shares.

#### 11) OVERTAX WESTERN COUNTRIES GOODS AND BRANDS

African governments overtax goods, services and brands from western countries (and their allies) because of facilitating wars, homosexual, coups, GMOs or terrorism in African. While African people promote goods, services and brands from countries which help African countries to develop because the Presidents of America and Europe are puppets of billionaires and manufactures of their own countries just like African Presidents are puppets of Europe and America. It is unfortunate that the way how leaders of America and Europe arm twist leaders of African countries to protect their imperialist interest is the way how African leaders arm twist their citizens to protect their selfish interests.

#### 12) FUSING PUBLIC GOOD WITH PRIVATE GAINS

Cybercrime, terrorism, disinformation, climate change and misinformation are the five global threats. While landslide relocation, recouping students loans, managing solid waste, providing student sanitary pads, maintaining street camera, evicting wetland encroachers, facilitating medical interns, managing forest encroachment, feeding primary students and recouping empowerment funds like PDM etc. are some of the unsustainable crush programs of Uganda simply because the government lacks strategic planning over political will. Therefore, to substitute foreign aid with social responsibility,

- a) Domestic companies which need to finance climate change programs, human rights programs, civic education programs or policy research programs under corporate social responsibility (CSR) and government organizations which need to secure climate change funds, human rights funds, civic education funds or policy research funds share your interests on this blog to be identified or contact Triple D Group for intermediary.

- b) **Law firms donate minibus (Drones) for transporting suspects from police to court because the current method of bundling them under the patrol seats is too inhuman to an extent that in case of an accident none of the suspect can survive.**
- c) **Churches, Government and Mosques educate society about safeguarding against the danger of AI (artificial intelligence) promoting fake miracles, self-medication and false evidence.**

**The rest, donate medical facilities to public hospitals because some patients die unnecessarily due to lack of facilities. Adopt a child from an orphanage home. Donate tree seedlings for planting roadside trees in your zone, division or district. Donate scholastic materials to public schools so as to reduce foreign aid. Or donate anything that fuse public good with private gains because private companies which conduct CSR tend to win the trust of society hence the chances of increasing sales, profits or returns through more clients.** However, is government's priorities misplaced? Why is it that government can recoup the billions of grow funds borrowed from World Bank to lend to women yet it failed to recoup trillions of Ntandikwa funds, Myoga funds etc. borrowed from taxpayer? Do foreigner's priorities take precedence over citizen's priorities? It is unfortunate that a good number of Ugandan ladies who own small business have an orphan like attitude problem of receiving without giving back to an extent that both those who money and those who don't have money are desperately begging money. They prefer sleeping with a variety of men just to get free money of injecting in their business than to secure a zero interest loan where they have to pay back the principal.

### **13) INSULATE YOUR PROPERTIES AGAINST RELATIVE AND FRIENDS**

**Whereas the constitution states that any person who is above eighteen years of age with anything valuable should make a will, most people fear to make a will thinking that it will draw them closer to their grave. Parents (especially fathers) with children who are below eighteen years of age have lost their property and assets to greedy and selfish relatives and friends after death even when they left a will highlighting who takes what. Such children end up suffering as if their late parents dint leave properties or assets. Therefore, if you are a father with properties or assets, don't waste time with writing a will concerning the distributions of your estates (properties or assets), just register a holding company which owns all your properties and assets (i.e. house (s), vehicle (s), land, business(es), plot (s) etc.) and allocate all your children a particular number of shares you want and includes their mother (s) as strictly your co-directors (if you had the children with different women) and allot the rest of the shares to yourself as a majority shareholders who doubles as a company director and a principal signatory to the company account. When you die without making a will, the shareholders (your children) will tell the directors (your widows) to secure a death certificate and distribute the shares of the deceased (their late father) amongst the orphans (your children) through the office of the administrator general and the office of the registrar general. If you had all your children with one women ensure that your mother, your wife, your sister and you are collectively company directors so as to avoid a situation where your wife can be tempted to kill you out of greed of the company wealth or under the influence of her side dish boyfriend. If you are a mother**

with properties or assets, do the same and allot your children share accordingly and include your husband, your father and your brother as your co-director. If you had your children with different men, include all your ex-husbands along your father and brother

14) MOTIVATE FRIENDS, WORKERS OR RELATIVES

Employees sale or buy evidence of tax evasion, embezzled money, money laundering evidence, inflated loans evidence or tax defaulting at a commission fee to motivate the friends, workers or relatives who are within the circles of the culprit to surrender such evidence for monetary gains which they cannot get from the culprit.

15) RESPECT YOURSELF AND ACQUIRE WISDOM

Age commands a certain degree of respect and wisdom as much as the environment you grow up in shapes your character and how you conduct yourself determines the respect you command in society. Therefore, if at your advanced age you don't command respect in your society and you also lack wisdom, it essentially means that you are more of a liability to your family and to your country.

16) FINE MEMBERS OF PARLIAMENT

Unemployed voters direct your MP to enact a law which compels all foreign companies like banks, cement manufacturers, breweries, steel manufacturers, insurance, fuel companies etc. including all state enterprises to sale shares to voters through an IPO. Play multiparty sports games to win constituency seed capital for an investment club from your aspiring MP. And also direct your MP to enact a law which fines MPs for each day they fail to attend parliament sittings without a substantial prior notice to parliament.

17) MEN HAVE MORE GENUINE LOVE THAN WOMEN

Much as women love values, a poor woman does not have love and her loyalty to her man is tested when he has nothing. While much as men value love, a poor man has love and his loyalty to his woman is tested when he has everything. But a rich man does not have love like rich women do love. Men have genuine love for their women than women do for their men because whenever a man goes out for work his first priority is to get enough money for his children and wife to an extent that some men walk to work and they work on an empty stomach just to save enough money for their families but whenever a woman goes out for work her first priority is to make enough money for her hair, her clothes and her parents. When a man is dating a single mother he genuinely loves her with her children to an extent of paying their school fees etc. except when the children (step children) disrespect him for not being their biological father but when a woman dates a single father she pretends to love the children (step children) and as soon as she settles down with the man, she starts to mistreat the children behind the curtains. When a woman lose her job or business her boyfriend/husband will help her get another job or to save her business but when a man lose his job or business his wife/girlfriend will dump him for another man (This is why people who date or who appoint basing on sympathy end up regretting). And the

fact that men buy wives through dowry, the law should allow men to sale their wives to another man so as to recoup their investment just like football clubs do if such a wives turns out to be more of a liability than an asset because some women in the modern world divorce men with an objectives of sharing wealth equally. Most women don't care about men's straggles and they don't appreciate what men give them because of their selfish entitlement attitude. When a man attains financial independence he looks forward to marrying a wife and produce children. But then a woman attains financial independence she starts saying that she does not need a man. For example, as I was walking on the street of Kampala road, someone hooted the car Horne and to turn it was my cousin sister calling me and she asked me to HELP her with UGX-50,000 which I did. After about ten months I passed by her hardware shop and I asked her to lend me UGX-30,000 on condition that I pay it back after one week. She told me to deposit a security on condition that I pay back UGX-70,000. I deposited my national I.D Card and my passport and after four days I came back with UGX-3 million and I paid her the UGX-70,000 and she pleaded that I give her UGX -1 Million out of the cash I had in the wallet to clear her rent arrears on condition that she pays me back in installments. When I explained to her that I had a deficit of UGX -2 Million out of what I expected to meet my financial obligations, she told me that if I have refused I should never come back to her shop. I realized that she has SELFISH ENTITLEMENT ATTITUDE to an extent that she couldn't consider the UGX-50,000 I gave her freely when we met at Kampala road.

#### 18) GENDER BALANCE SHAREHOLDERS

- Male bosses/leaders appoint a female deputy/vice without compromising professional competence and the Female bosses/leaders should as well appoint a male deputy/vice.
- husbands in the modern world were the garden is in the pocket, pay for only rent, fees, meals etc. on condition that your working wives pay for electricity bills, scholastic materials, water bills, snacks, TV bills etc. so as to promote gender equality amongst working class couples because our grandmothers contributed finically for the welfare of their families by tilting the family land which the grandfather bought. The grandfather would sale the harvest and buy clothes for the grandmother and the children including other household properties. Therefore, in the modern world, any WORKING WIFE who says that this is my money with my parents does so from a selfish angle without reasoning and consideration because the fact that her husband also have parents, such a ladies should stay with their parents (without getting married) so as to closely enjoy her money with her parents. There are many weddings but few marriages simply because couples (cohabiting or married) don't collectively contribute towards the success of a project called MARRIAGE and FAMILY yet a successful relationship is where each partner contributes by fifty percent.

#### 19) NAME AND SHAME THEIR RELATIVES, NEIGHBORS AND FRIENDS

Students isolate students whose parent constructed a home in a wetland. Consumers boycott goods from factories which were built in a wetland. Religious leaders inform your congregants to name and shame their relatives, neighbors and friends who constructed in a wetland. While City authorities, town councils and municipal

councils use solar energy, electric cars, paper bags, wind energy and plant trees on all road sides so as to reduce the operation costs and the effects of climate change on top of ensuring that each market has a garbage collection truck which eases the delay of waste disposal. Direct all landlords with buildings on the main road to pave their compound up to the main road on top of planting rooftop flowers on condition that you set the paving standards. Award CEOs, MDs, OCs, EDs, CAOs etc. who paint, pave, slash, renovate or modernize their workplace compound, office and fence so as to promote the culture of leadership responsibility on national beautification so as to foster organization which gives citizens a sense of belonging, a sense of direction and a sense of dignity. Ask parliament to enact a law which automatically sentence anyone arrested vending on the street for a one-year hard labor jail term without remission or to pay a court fine of strictly one million shillings to an extent that also landlords/landladies who fail to comply with the paving directive or who allow hawkers to enter their building should as well be fined heavily. It should be a criminal offence for any technician, carpenter, mechanic, plumber, welder, engineer etc. to work at the workshop, on the site or in the garage without wearing a branded overcoat or overall, on duty highlighting the name and contacts of their workshop or garage because when they are wearing ordinary clothes it becomes hard for society and security to distinguish them from lunatics or criminals.

## 20) CRIMINALIZE ILLOGICAL COPYING

Everyone copies certain things but majority of Africans copy and paste without thinking instead of copying and edit to an extent that GMOs BLEACHING, and LGBTQs should be forbidden by African culture and Africa constitution. Copying logically is only good with the prospect of solving a challenge or making a profit. There are three types of people who copy irrationally or emotionally. The one who copy out of jealousy, the one who copy out of excitement and the one who copy out of inspiration. Most people who copy lose their copy cut along the way simply because they cannot copy the PCPs (Passion, Competence and Persistence). In fact Africa needs to stop issuing National I.D cards, Driving license, Passports, academic transcripts etc. to Africans who have colonial names or who bleach so as to spiritually and emotionally disconnect ourselves from the bondage of colonialists among others to an extent that Africans whose National I.D cards, Driving license, Passports and academic transcripts carry the names of colonialists should be given an ultimatum to drop/abandon the colonial name were also.

Enact an impartial simple defilement law which punish both the teenage girl who indulge in sexual intercourse (fornicate or trades in sex) for material or monetary gains and the male who provides the material or monetary in exchange for sex because given the rate of youths on simple defilement cases in prison for years were the rate of teenage girls sexual immorality is extremely high because of the blank cheque teenage girls have to indulge in sexual immorality (fornication) as they please. The same law should allow rich prisoners with long term sentences to sale at least sixty percent (60%) of their sentence to poor prisoner (s) with short term sentence upon negotiations between the two parties before the officer in charge of prison and the magistrate/Judge seal the deal on

condition that the rich prisoner meets all the tax charges and legal charges of the transaction. The impartial law will act as a scare crow for teenage girls to an extent that it should state that any teenage girl who decides to have sex for material, for pleasure or for money before clocking eighteen years consents to simple defilement hence subject for punishment by law and the parents who allow their children to indulge in sex for material gains before clocking eighteen years of age commit an offence of promoting simple defilement. Sexually active teenage girls as young as ten years (10 years) indulging in sexual immorality as a result of the environment they are brought up in were also some of their parents permit them to seduce men for material or monetary gains (prostitution) not for getting peer pressure.

#### Beauty and the beast

Most good looking ladies are poor in both boardroom and bedroom .....why do women lose their sweaters along the way, forget their nickers in the bushes, in the toilet, in the guesthouses etc. yet men to lose their coats on the way, their underwear in the bushes, in the toilet, in the guesthouses
