Ibrahim Traore

My generation does not understand this: how can Africa which has much wealth became the poorest continent in the world? We will break every tie that kept us in slavery

Nelson Mandela

A fundamental concern for others in our individual and community lives would go a long way in making the world the better place we so passionately dreamt of. Everyone can rise above their circumstances and achieve success if they are dedicated to and passionate about what they do.

What counts in life is not the mere fact that we have lived. It is what difference we have made to the lives of others that will determine the significance of the life we lead.

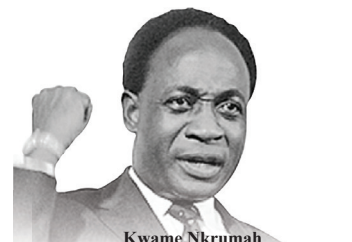

As long as many of our people still live in utter poverty, as long as children still live under plastic covers, as long as many of our people are still without jobs, no South African should rest and wallow in the joy of freedom.

"It always seems impossible until it's done."

Thomas Sankara

You cannot carry out fundamental change without a certain amount of madness. Imperialism is a system of exploitation that occurs not only in the brutal form of those who come with guns to conquer territory, it often occurs in more subtle forms, a loan, food aid, blackmail. We are fighting this system that allows a handful of men on Earth to rule all of humanity. While revolutionaries as individuals can be murdered, you cannot kill ideas.

Kwame Nkrumah

It is clear that we must find an African solution to our problems, and that this can only be found in African unity. Divided we are weak; united, Africa could become one of the greatest forces for good in the world. Countrymen, the task ahead is great indeed and heavy is the responsibility; and yet it is a noble and glorious challenge - a challenge which calls for the courage to dream, the courage to believe, the courage to dare, the courage to do, the courage to envision, the courage to fight, the courage to work, the courage to achieve - to achieve the highest excellences and the fullest greatness of man.

Dare we ask for more in life?
